

Learning to Protect Ourselves!

This semester in ROOM 3 we have been learning all about **Protective Behaviours**. We have been doing lots of activities that look at different situations where we might be in danger. We have been working on strategies that could assist us if we feel something is 'bad scary' or is unsafe for us to do.

““If you’re not feeling happy or safe you can use your helping hand. If they (adults) don’t listen to you, find another person who will help.”

“To be safe you can go to the shop and hold your brother’s or sister’s hand. They have to be 18. Don’t go by yourself.”

“They were funny. They were being nice and sorting stuff out. They sorted their problems. Granny

“We learnt about feeling ‘fun scary’. When you feel scared of something (you) get butterflies and your eyes fill up with water.”

- Jacob

A Helping Hand

A helping hand is a group of 5 trusted adults that we know we can talk to if we feel unsafe. These adults can be a parent, a family member over the age of 18, a close family friend, a neighbour or even a teacher.

Constable Care

On Friday 26th May 2017 the whole school was invited to attend the Constable Care Incursion. Room 3 went to the undercover area where we watched a puppet show called 'Fun Scary". The show was a great way to review all the things we had been learning about protective behaviours!

In the ART ROOM

Term Two has seen the artist Romero Britto come alive in all of us!

His bright and bold artworks really captured the interest of all the children. Room Three have done an amazing job at using the neo-pop style to inspire their art!

We specifically looked at the portraits he does. Check them out!
