

Room 9 Newsletter

Room 9 have had a very busy and fun Semester. We have worked hard, learnt lots of interesting things and had fun exploring new topics.

Check out some of the great things we have been doing.

Art

Jester Art - using complimentary colours to make it stand out.

Hot and cold pictures - using warm and cool colours and patterns to give each picture a different mood.

Amazing Machines - using overlapping 2D shapes to design an amazing machine.

Fun science on our excursion to Scitech

Scitech 18-5-17

Yesterday morning room 9, 14 and 11 went on the bus to Scitech. Firstly we went in the super cool show. I liked it. After that we went with Rocky to solve a crime scene and find out who stole the baby rhino. Then we had free time and then had lunch. Lastly we went to the planetarium before we went back to school. Room 9 Newsletter

Scitech

Yesterday rooms 14, 9 and 11 went to Scitech. Firstly we went on the bus. Then we went and saw the super cool show. After that, we had to solve a crime scene. Next, we had free time in Scitech. After free time, we had lunch and recess. Then the last thing we had to do was go to the planetarium. Then we went back to school. I had funnnnnnnnnnnnn. By Jylee 18-5-16

Digital Technologies

This term, we have been learning about digital citizenship. We have explored many online resources and created our own power points about how to stay safe and respectful on the internet.

Kayden

Alice

We took part in a Cyber Safety Incursion. We were given lots of useful tips for staying safe on the internet and also learnt about our 'digital footprint'.

Our fantastic assembly item 'Tiddalick'.

Our assembly item with Room 5 was a great success. We all worked hard to learn our lines and perfect the actions of our characters. Thank you to parents and care givers for helping us with our wonderful costumes.

Other fun events - Constable Care Incursion and Easter Hat Parade
