

Room 18 and Room 2 Buddies working together in the Construction Room and creating some fantastic art work for NAIDOC day. It's always fun catching up with our Buddies

Students from rooms 18 and 20 worked with Leah from Junkadelic to create musical instruments made out of recycled items for our assembly item. She also helped the students with the musical piece they performed at the assembly.

We were delighted to have the Mr Stephen Price, MLA (Member for Forreestfield) attend our assembly.
