

Year 2 Room 5 Class News Letter

Wow! What an amazing first semester in Year 2.

In Term 1 we did a lot of investigating and learning about “Butterflies in our Backyard”. The highlight of this topic was our STEM project where we designed, constructed, wrote about and presented a home for a butterfly. We then displayed our masterpieces in the Library and the Office reception.

Did you know Butterflies have a long sticky tongue?

A lot of our lessons have been integrated where we have combined maths, reading, spelling, writing, science and technology. Every Tuesday we work with a buddy from Year 6. During some sessions we read to each other and other times we work on the iPads.

Term 2 has been all about being a “Superhero”!

Our lovely helpers Dorri and Lori prepared our capes ready for an incredible transformation!

We planned, designed, transferred, painted then decorated our most AMAZING Superhero capes then presented them to the world at our “Superhero Assembly”. We have written narratives and made them into books which we plan on reading to the younger classes.

We have used the iPads for photos and digital text and made a power point presentation showing us in our Superhero capes.

On our Supernova morning we will wear our capes and the head pieces we individually made as part of our Term 2 STEM project.

Other highlights this semester were our Pirate Day, Jump Rope for Heart, Protective Behaviours with Mr Judd, planting herbs in our garden kitchen and Celebration Days. We are looking forward to more exciting challenges and learning opportunities in Term 3.

Happy holidays everyone!
