

Room 9 Newsletter

So far this year we have worked very hard and learnt lots of new things. Semester 2 has started well and we think it will be even busier and lots of fun. Here are some of the great things we have been working on.

Coding and Programming

Last term, we began learning about programming and coding. We wrote some fantastic graph paper programs and challenged our partner to follow them on grid paper. Next we wrote an algorithm for making paper airplanes and tested it to see if it worked.

Fruit Kebabs - Procedure writing and nutrition

Fruit kebabs

How to make fruit kebabs.

You will need: Apples, Strawberries, Oranges, Knife, Cutting board, Pineapples, Cucumbers, Plum, bananas, Kiwi, Grapes, Cherries, Mango, Paper plates and 3 skewers

Geography Project

For geography we are learning about Australia's neighbours. We are also researching and writing a project on a country in Asia or New Zealand.

STEAM Projects

We worked extremely hard on our STEAM projects. For these projects we were challenged to make an insect or animal toy that fits the following criteria:

1. It has to move.
2. It has to be smaller than a shoe box.
3. It has to be made out of recyclable materials.
4. If it has a motor and battery, then these have to be removable.
5. It has to be sturdy and stay together.

We have had lots of fun making our insect or animal, but sometimes it would not move. We then had to alter our plan and try again.

Other fun things we have done

Tree Planting

Green Warriors
