

## Room 5 & 18 Buddies

The students in rooms 5 and 18 have been meeting each week to learn coding. To start with, the students from room 18 showed the year 2s how to start a new project and code some animals to run a race.

Now we are planning a story together by drawing and writing our ideas on a storyboard. The next step is to code our stories on the Scratch Jnr app. We are having lots of fun!
