Promoting Alternative Thinking Strategies Program

EL2 PATHS NEWSLETTER

This year at school we have become good friends. We look after each other. We pay special attention to remembering not to hurt the feelings of our classmates.

At assembly we sang two songs that carried the message of caring for each other. One song was "Peace in my Fingers" and the other was "Teaching Peace". We made signs that we held on the day. We think we did a good job.

We participated in "International Dot Day". International Dot Day is about never giving up and we saw a story about a young girl who nearly gave up when she found something hard to do. We talked about the work resilience and learnt how it can help us every day. When we have a problem we try to work out ways that it can be sorted out. If one strategy doesn't work then we try again. We did some activities on the day and here is some photos from the day.
